

# CMP4010

## Wi-Fi + BLE

### Connectivity for IoT

Feature rich & high performance

Built for high performance and harsh environments, CEL's Hosted or Hostless IoT connectivity module is perfect for applications requiring multiple technologies for local+remote connectivity, a simple method for commissioning Wi-Fi, low power, processing at the edge, running a complete application, data/audio/video applications, and more. Below are some key highlights of this leading-edge solution.

#### WIRELESS FEATURES

- Single-Band 802.11 b/g/n
  - Tx: +18 dBm
  - Wi-Fi Direct & Soft AP
  - Wake on RF
- BLE 5.0 and BT Mesh
  - Tx: +4.5dBm
  - 2Mbit PHY
  - Co-existence Manager
- Low Power Consumption
- Long Range & Broad Coverage
- High Noise Immunity
- High Throughput

#### APPLICATION RESOURCES

- Dual-core Cortex M4 & M0
- 16Mb Flash, 4Mb PSRAM, 512kB SRAM
- 35 GPIO, USB/UART/SPI/I2C
- RTC, I2S & Audio CODEC
- Cap Touch & Keyscan
- Advanced Security Features

- Surface-mount
- PCB-trace Antenna
- Antenna Connector
- Castellated Edge
- 16.7x26.3mm

#### SOFTWARE DEVELOPMENT TOOLS

- HOSTED: AT Command Set
- HOSTLESS: RTOS Support - FreeRTOS, Arm Mbed
- Toolchain Support: IAR, GCC
- AWS/Google Cloud/Azure Certified Platform
- Alexa/Smart Assistant and Homekit Support

#### REFERENCE CODE AVAILABLE

- Wi-Fi Provisioning via BLE
- USB UVC Camera Interface @1280x720 30fps (~3.5MB/s)
- OTA FW Updates
- Fast Connect
- Remote Connectivity

#### APPLICATIONS

- Connected Home...Lights, switches, outlets, circuit breakers, door cameras, wall displays, appliances, timers
- Safety...CO2, Smoke Detectors
- Residential HVAC...Thermostats, AC units, furnace, sensors
- Security...Locks, keypads, cameras
- C&I Lighting...control adaptors, sensors, switches
- Building Automation...HVAC controllers, VAVs, security devices, shade controls, lighting controls & sensors
- Smart Energy...generators, load switches, power modules

#### SAMPLING KITS AVAILABLE

[DigiKey - Evaluation Board - CMP4010-EVB](#)

[Mouser - Evaluation Board - CMP4010-EVB](#)
